U CHAMBER CHOIR

Last year's performance was stunning, astonishing and stirring. And the response of Club members in the Executive Board's survey was absolute: Let's bring them back! So here again – on **December 9** – will be the Chamber Choir Redux with another memorable performance YOU actually voted for.

Reformed in 2012 in honor of former faculty and accomplished choral arranger Bernell Hales, the 24-28 member U Chamber Choir maintains the high choral standards he set in his twenty years at the U. The choir covers a wide range of repertoire and styles, focusing on those that push choral music into new, exciting arenas.

Dr. Barlow Bradford is one of the leading conductors and composers in the country, perhaps the world. An associate professor of choral studies, Barlow holds The Ellen Nielson Barnes Presidential Endowed Chair

Dr. Bradford

for Choral Studies in the School of Music.

As an orchestral and choral conductor, he co-founded the Utah Chamber Artists in 1991 which has attained international acclaim for its impeccable, nuanced performances. NPR's "First Act" – dedicated to choral music – featured Utah Chamber Artists performing with the Boston Pops and Utah Symphony. Many of Bradford's arrangements have been recorded by the Mormon Tabernacle Choir.

Bradford has taught courses in music theory, conducting, arranging, composition, private piano and organ at the U of U and BYU-Hawaii.

Bradford's doctorate in musical arts is from the University of Southern California. Among his mentors are Gustav Meier, Robert Cundick and Gladys Gladstone.

SAY AGAIN? AND IN ONE BREATH, IF YOU CAN

Start here: The Missile Defense Agency (MDA), Ballistic Missile Defense System (BMDS) Operational Test Agency, Joint Functional Component Command for Integrated Missile Defense, and U.S. Pacific Command, in conjunction with U.S. Army soldiers from the Alpha Battery, 2nd Air Defense Artillery Regiment, U.S. Navy sailors aboard the guided missile destroyer USS Decatur (DDG-73), and U.S. Air Force airmen from the 613th Air and Operations Center, successfully conducted a complex missile defense flight test, resulting in the intercept of two medium-range ballistic missile targets. The flight test was planned more than a year ago, and is not connected to events in the Middle East.
